Objective 1:
Improve application of the Ecosystem Approach to Fisheries Management (EAFM).

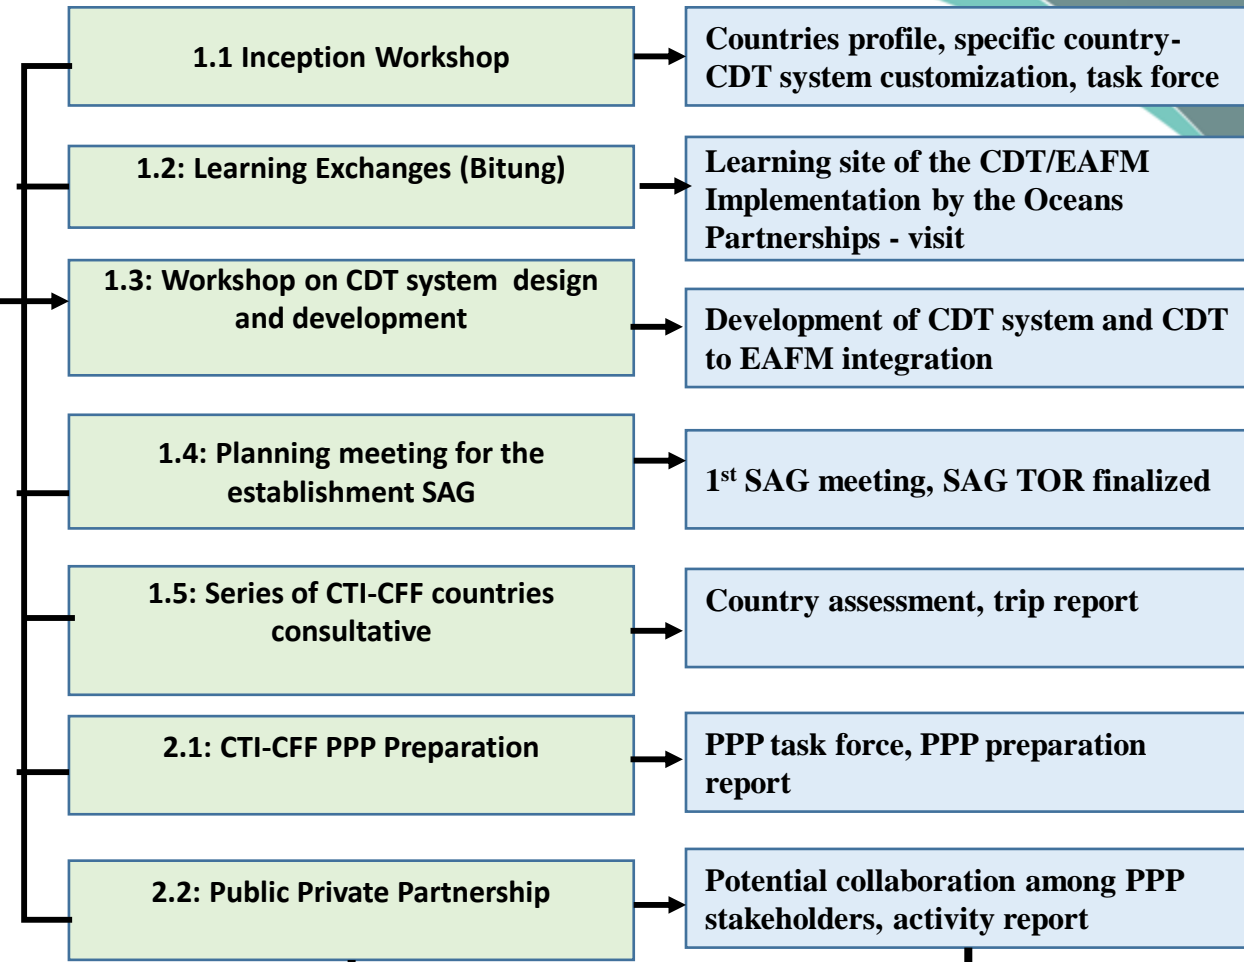

Objective 2:
Strengthen Collaboration among key CTI-CFF organizations and partners through a series of cross-cutting activities designed to promote country-to-country engagement, build professional networks, and leverage private sector funding

Purposed

To strengthen the Coral Triangle Initiative for Coral Reef, Fisheries and Food Security (CTI-CFF) in ecosystem approach fisheries management (EAFM) through sharing the existing CDT systems and USAID Oceans CDT system to combat illegal, unreported and unregulated fishing and promote sustainable fisheries for livelihoods and food security in the Asia and Pacific region by the mid of 2019.

TO: CTI-CFF ECOSYSTEM APPROACH TO FISHERIES MANAGEMENT TWG MEMBERS, NCCCS, DEVELOPMENT PARTNERS AND COLLABORATORS

Dear CTI-CFF CCA WG Members, NCCCs, Development Partners and Collaborators,

SUBJECT: OUTPUTS DURING THE CTI-CFF/USAID INCEPTION WORKSHOP: BUILDING UP A REGIONAL CATCH DOCUMENTATION AND TRACEABILITY (CDT) SYSTEM AND ADVANCING FISHERIES MANAGEMENT FOR STRENGTHENING FOOD SECURITY IN THE CORAL TRIANGLE REGION

Warm greetings to all of you!

First of all, I would like to express my sincerest apologies for missing out the CTI-CFF/USAID Inception Workshop last September 25-26, 2017 in Manado, Indonesia due to an equally important national activity in our country. Hope you understand.

As the Chair of the Ecosystem Approach to Fisheries Management (EAFM) Working Group of CTI-CFF, I would like to share with you the following outputs of that workshop:

1. Draft TOR of the Task Force for CDT Development
2. Draft Country Gap Analysis for CDT Development
3. Recommendations of the workshop
4. Draft minutes of the inception workshop

Kindly go over each document and consult your respective NCCCs and appropriate government agencies to get their comments and feedback as inputs in the finalization of these documents. I am hoping we can continue these discussions during the EAFM Pre-SOM meeting in November.

Thank you so much to all the country delegates, partners and collaborators for their participation and contribution during the workshop.

C. Potential Cooperation with CMAR (The Eastern Tropical Pacific Marine Corregidor)

Member of countries

Costa Rica

Panama

Colombia

Ecuador

Background

- One of the CMAR objectives has been to get in contact with other marine corridors or regional initiatives in order to learn from their experiences and at the same time to share the best practices and research work made by CMAR on the area of MPA, threatened species, invasive species and fisheries management.
- Virtual call-meetings were conducted in order to understand better how each regional initiative operates, how it is structured and governed, understand better the work and functions of the regional working groups among others.
- CTI-CFF representatives were invited and supported by CMAR to Santa Marta, Colombia in 2016 to help identify learning activities that would benefit both initiatives.

Purpose of the collaboration

Objective:

Develop the technical and operational capacities of CMAR and CTI-CFF to meet the regional objectives of both initiatives in the management and sustainable use of marine biodiversity.

Some common topics of interest identified:

- Effectiveness of management and monitoring for Marine Protected Areas (MPAs),
- Climate change adaptation,
- Management of invasive species,
- Management of fisheries in the regional level
- Sustainable tourism management

Proposal is only for 2 years (2018 - 2019)

Ministerio
del Ambiente

Proposed Learning Activities

- Regional EAFM Training
- MPA Management Training with focus on climate change, invasive species and effective monitoring of MPAs
- Sustainable Tourism Training

Arrangements: Each initiative is expected to fund or seek other sources to support its own delegates to the learning events.
